INTRODUCTION

Saipem¹ is an internationally oriented industrial group which, because of its size and the importance of its activities, plays a significant role in the marketplace and in the economic development and welfare of individuals who work for or with Saipem and of the communities where it is present.

The complexity of the situations in which Saipem operates, the challenges of sustainable development and the need to take into consideration the interests of all those with a legitimate interest in the company business (“Stakeholders”), strengthen the importance of clearly defining the values that Saipem accepts, acknowledges and shares as well as the responsibilities it assumes, contributing to a better future for everybody.

For this reason the Saipem Code of Ethics (“Code” or “Code of Ethics”) has been drafted. Compliance with the Code by Saipem’s directors, statutory auditors, managers and employees, as well as by all those who operate in Italy and abroad for achieving Saipem’s objectives (“Saipem People”), each within their own functions and responsibilities, is of paramount importance – also pursuant to legal and contractual provisions governing the relationship with Saipem – for Saipem’s efficiency, reliability and reputation, which are all crucial factors for its success and for improving the social context in which Saipem operates.

Saipem/Moss shall promote knowledge of the Code among Saipem/Moss People and the other Stakeholders, and accept their constructive contribution to the Code’s principles and contents. Saipem/Moss shall take into consideration any Stakeholder’s suggestion and remark, with the objective of confirming or integrating the Code.

Saipem/Moss carefully monitors compliance with the Code by providing suitable instruments and regulatory documents² for information, prevention and control purposes and ensuring transparency in all transactions and behaviours, by taking corrective measures if and as required. The Compliance Committee or other equivalent body of each Saipem company performs the functions of guarantor of the Code of Ethics (“Guarantor”).

The Code is brought to the attention of all those with business relations with Saipem/Moss.

1. GENERAL PRINCIPLES: SUSTAINABILITY AND CORPORATE RESPONSIBILITY

Compliance with laws, regulations, statutory provisions, governance codes, ethical integrity and fairness, is a constant commitment and duty of all Saipem/Moss People, and characterizes the conduct of Saipem’s/Moss’ entire organisation.

¹ Saipem” means Saipem SpA and its direct and indirect subsidiaries, in Italy and abroad.

² Regulatory documents” are documents that regulate policies, processes and specific issues/aspects of company interest, with the objective of ensuring uniformity of conduct, as well as pursuing compliance objectives, describing tasks and/or responsibilities of the organisation structures involved in the regulated processes, the management and control procedures and the information flows.

Saipem's/Moss' business and company activities shall be carried out in a transparent, honest and fair way, in good faith, and in full compliance with competition rules.

Saipem/Moss shall maintain and strengthen a governance system in line with international best practice standards, able to deal with the complex situations in which Saipem operates, and with the challenges facing sustainable development.

Systematic ways to involve Stakeholders have been adopted, fostering discussion on sustainability and corporate responsibility.

In conducting both its activities as an international company and those with its partners, Saipem/Moss stands up for the protection and promotion of human rights, inalienable and fundamental prerogatives of human beings and basis for the establishment of societies founded on principles of equality, solidarity, repudiation of war, and for the protection of civil and political rights, of social, economic and cultural rights and the so-called third generation rights (self-determination right, right to peace, right to development and to the protection of the environment).

No form of discrimination, corruption, forced or child labour is tolerated. Particular attention is paid to the acknowledgement and safeguarding of the dignity, freedom and equality of human beings, to protection of labour and of the freedom of trade union association, of health, safety, the environment and biodiversity, as well as the set of values and principles concerning transparency, energy efficiency and sustainable development, in accordance with International Institutions and Conventions.

In this regard, Saipem operates in compliance with the international provisions of the Universal Declaration of Human Rights of the United Nations and the following conventions:

- the Convention on the protection of the European Communities' financial interests (Brussels, 26 July 1995) and relevant first Protocol (Dublin, 27 September 1996);
- the Convention on the fight against corruption involving officials of the European communities or officials of Member States of the European Union (Brussels, 26 May 1997);
- the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions (Paris, 17 December 1997);
- the fundamental Conventions of ILO-International Labour Organization (18 June 1998).

Saipem/Moss also keeps into account the provisions of the national legislation most advanced on the front of the fight against corporate crime and, in particular, the controls and the mechanisms of prevention and control considered and/or referred to within the legal provisions, among which by way of example:

- the Foreign Corrupt Practices Act, adopted by the U.S. Government on 19 December 1977 (as subsequently integrated and modified by the International Anti-Bribery Act of 1988);
- the Bribery Act 2010, adopted by the UK Government on 8 April 2010;

- the 2010 Federal Sentencing Guidelines Manual & Supplement, issued by the United States Sentencing Commission on 1 November 2010;
- the Modern Slavery Act 2015 (London, 26 March 2015);
- the French law No. 2016-1691 of 9 December 2016, also known as Sapin 2.

All Saipem/Moss People, without any distinction or exception whatsoever, must respect the principles and contents of the Code in their actions and behaviours in the context of their functions and tasks, aware that compliance with the Code is fundamental for the quality of their working and professional performance. Relationships among Saipem People, at all levels, shall be characterized by honesty, fairness, cooperation, loyalty and mutual respect.
